March 9-1937

American Numismatic Society  
Mr. Howland Wood. Curator.  
New York City.

Dear Sir. I hereby apply for position of Assistant Curator at the Museum of the Numismatic Society. I have been for many years a student of coins in the various series more so in the ancient, oriental and medieval series. Have a reading knowledge of several languages being a former student of University of Copenhagen, Denmark. Could furnish many references from well known collectors here whose collections I have catalogued, also from Museum authorities.

Mr. Wymann, deceased, whom I knew spoke to me in regards to the position, which he thought I should be able to make myself particularly fitted for. I am 46 years old and married.

Without flattering my numismatic self I am in this locality and in the California Coin Club the fellow who can tell "what it is".

I shall be glad to correspond with you further in regards to this application.

Sincerely  
Holger Jorgensen.

Los Angeles, Calif.

Dear Mr. Jorgensen:

Your favor of March 9th at hand. The position of Assistant Curator has been filled. As a matter of fact, we had someone lined up for some time.

If ever you should be east I should be glad to have you come in and see us because one never knows what the future will bring forth. However, at the present time we have here all that we can use or have the money to pay for.

Very truly yours,

Curator
